MANY GAINS WIPED OUT

Brisk Upward Movement Followed by Depression.

LONDON MORE CHEERFUL

News Had Little Influence and Interes Seemed to Be Centered on Quesa tion of Whether Support Would Be Continued.

(By Associated Press.)

NEW YORK, September 20.—Stock market operators showed a lack of confidence in the market to-day in the absence of the large buying by the great banking interests, which supported prices yesterday. The brisk upward movement at the opening in continuance of vesterday's movement, gave place to duliness, with a slow downward movement and ending with decided weakness and a drop which wiped out a good part of yesterday's gains. News developments were quite without influence on the movement, and the entire interest of operators seemed to be centered on the question whether the leading banks and capitalists of the country would continue to leak a buying movement and whether the urgent liquidation to secure relief from embarrossment caused by over-extension by a rious syndicates and capitalists was finished.

The opening advance was much helped by the more cheerful tone in London.

raasment caused by over-extension by various syndicates and capitalists was finished.

The opening advance was much helped by the more cheerful tone in London. The completion of the stock market settlement there without embarrassment afforded great relief, and led to a sharp rebound in British consols. There seemed to be a good demand also for American securities over there. It was suggested that Americans who desired to go long of the market might have preferred to do so in London as the closing up of the contract will be deferred for two weeks until the next stock market settlement. It soon became manifest in the course of the animated trading of the first hour that stocks bought yesterday were being sold to take profits. This seemed to demonstrate the simple purpose of that buying to support the market and check the disorderly decline and took away the investment charactor of the buying. The buying in United States Steel 5's, on a point rise was especially conspicuous. The renewal of the pressure against Pennsylvania completed the discomfiture of the newly formed buil sentiment and turned the tide downward. Pennsylvania fell 2-5-8 below has night and a number of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the general run of the market leaders as much as two points, while the genera

Wall Street Gossip.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, Sept. 30.—The opening on the Block Exchange was firm as the London market was oncouraging, and traders for the most part thought the raily would run further. The loan rowd of the previous night had shown that there was atill some short interest uncovered, and floor traders hoped to catch some of it. The Well following was probably building New Tork Central, helped by a fair abort interest, and the scarcity of the stock in the street. The opening of Amaigamated Copper was disappointing, expecially as Rio Tinto and Anaconds, were both higher in London. There seemed to be some good stock for sale.

ROCK ISLAND STRONG:

The early strength in the Rock Island issues were considered of cheme general importance to the Book Island issues were considered of the Moore brokers for a long of the Moore brokers for a long title strength thrown by the Rock Island interact in the series deline, in spite of their failure to take over Seaboard, has created considerably more confidence in the Rock Island assues.

TCHISON AND B. AND O.:
Some good investment inadiry for Atchison referred was reported. Baltimore and Oblogied better, as there is some reason for thinking that a heavy block of it which was hanger the market bas been successfully liquidated.

CICLINED TO HALT:

CICLINED TO HALT:

If the market was inclined to halt after the
lat hour's trading, as there was a rather heavy
limme of profit-taking, sufficient, in fact, to
live the idea that stock which had been held
r was coming out where the market would take
t. Floor traders were taking profits, and in
some cases were making a few experiments on
the short side.

DARLY AFTERNOON:
The weakness in Pennsylvania was one of the most striking features of the reaction, and

probably did as much to turn the market as anything else. Street and Norton and traders hammered it and although they appeared to find fairly protecting orders around 117, they probably casput stock on the way down.

The traders who bought New York Central early were disappointed at the result and threw it over at a loss.

Boston was credited with some of the selling

It over at a loss,
Boston was credited with some of the selling
to American Sugar.

The Gould brokers seemed to be taking care
of Missouri Pacific on the reaction, and did not
think much of the selling.

The buying by Flower and Company was one
of the Interesting incidents in Brooklyn Rapid
Traristi. It is a long time since the same interest has appeared openly in the stock.

The market railled a little from the low point, but not very much, and the close was heavy and spirities. The bear traders were more or less in control, and the professional character of some of the selling was very obvious.

CONDITION OF TREASURY

Ellis H. Roberts Submits His Annual Report.

INCREASE IN CIRCULATION

A Continual Growth in Proportion of Paper Currency of the Denomination of \$10, but it Has Not Kept Pace With the Demand.

(By Associated Press.)
WASHINGTON, Sept. 30.—Ellis H.
Roberts, treasurer of the United States,
has submitted to Secretary Shaw his

has submitted to Secretary Shaw his report on the condition of the treasury June 30, 1993, and its operations during the past fiscal year.

The total net revenues for the year were \$560,396,674, an increase of \$38,938,480 ever the year preceding, and the total expenditures \$503,699,007, an increase of \$35,782,034. The surplus was \$54,297,607, as compared with \$91,287,375 in 1902. In the receipts there was an increase of upcompared with \$0,1287,875 in 1902. In the receipts there was an increase of upwards of \$30,000,000 from customs, and a falling off of over \$41,000,000 from internal revenue, the latter being the result of legislation enacted with that object. On the side of the expenditures, there was an increase in every important account except pensions and interest, in which there were slight savings. The expenditures for the two military departments, which together, amounted to \$191,237,554, 'forming by far the heaviest outlay for any engile purpose were upward of \$21,000,000 greater than the year before.

Treasurer Roberts places the monetary \$500k of the country on June \$0, 1903, including gold and sliver. United States notes, treasury notes and national bank notes, but not certificates, at \$2,558,149,621, an increase of \$124,820,03 for the year. The increase on gold was \$30,187,401 and national bank notes \$35,098,550. The total estimated stock of gold was \$1,222,731,950, constituting nearly 47 per cent. of the whole. The gold in the treasury amounted to \$531,420,789, after a gain of \$71,220,480 in twelve months.

Of the receipts from oustoms at the port of New York, constituting 67 per cent. of the whole, 88 per cent. were in gold.

The increase of \$1,400,789, after a gain of \$71,220,480 in twelve months.

Of the receipts from oustoms at the port of New York, constituting 67 per cent. of the whole, 88 per cent. were in gold.

The increase of the money in circulation during the year was \$121,740,252, of which \$4,776,463 was in gold and gold certificates, and \$4,660,133 in national bank notes. The share of money for each person increased \$9 cents and the proportion of gold to the whole rose to 42 per cent. the highest ratio ever recorded.

There has been a continual increase in the proportions of paper currency of the denominations of \$10 and under in circulating, but the growth hardly keeps pace with the demand. The supply can be increased if Congress will authorize the issue of \$10 certificates for \$10 and remove the res receipts there was an increase of up-

ETCHISON HAT CO. IS INCORPORATED

The dissolution of the well known wholesale hat jobbing concern of Etchlson, Bates & Starke, of this city, is announced to take place to-day by mutual consent, Messra, Jacob Bates and E. D. Starke retiring, and the entire business being assumed by Etchlson Hat Company (incorporated), which has been recently chartered by the Corporation Commission. The president of the new concern, Mr. John E. Etchlson, Sr., established the bisiness of C. W. Thorn & Co. here in 1866, and was managing partner until 1893 when he retired temporarily owing to ill health and the succeeded C. W. Thorn & Co., and three years later Mr. John E. Etchlson, Jr., was admitted as a partner.

The retirement of Messra, Bates and Starke succeeded C. W. Thorn & Co., and three years later Mr. John E. Etchlson, Jr., was admitted as a partner.

The retirement of Messra, Bates and Starke from the concern necessitated a reorganization and that has been perfected the concern second of the concern for the step of the concern for the concern and the tassurer, John E. Etchlson, Jr.; secretarry, W. B. Broaddus, and three defectors.

The business of the house has extended through many of the Southern States, and all of the members of the new concern are well known and popular business men.

An Error Corrected

An Error Corrected,
Editor of The Times-Dispatch;
Dear Sir,—I see from your paper of September 28th that the Randolph Street Baptist Church has extended a call to the Rev, E. J. Richardson, of Saluda, Va.
This is an error pure and simple, for the Randolph Street Church has not as yet decided on any one. We have the names of several under consideration, but have reached no decision.
Printing such rumors is unfair to both church and preacher, and we hope you will not print any more reports unless they come from a reliable source and endorsed by the chairman of the pulpit committee.
Hoping that you will give this publicity in your paper, I am,
Yours respectfully,
JOHN B. MINOR,
Chairman Pulpit Committee.
No. 505 Randolph Street.
The item to which reference is made

The item to which reference is made by the chairman of the pulpit committee of the Randolph Street Church was published not as a rumor, but as the statement of a fact. It was reported to the Baptist Ministers' Conference that the call had been extended, and the fact was duly recorded in the weekly report of the conference, published in the Religious Herald. It was here that the information that led to the publication in The Times-Dispatch was obtained. There seems now to have been a mistake all around. The error, which was, of course, innocently made, is regretted and is now cheerfully corrected.
